

ACTIVITY REPORT

Name of the activity: 4-day workshop on “PCB Design and Fabrication”

Title /Topic: PCB Design and Fabrication

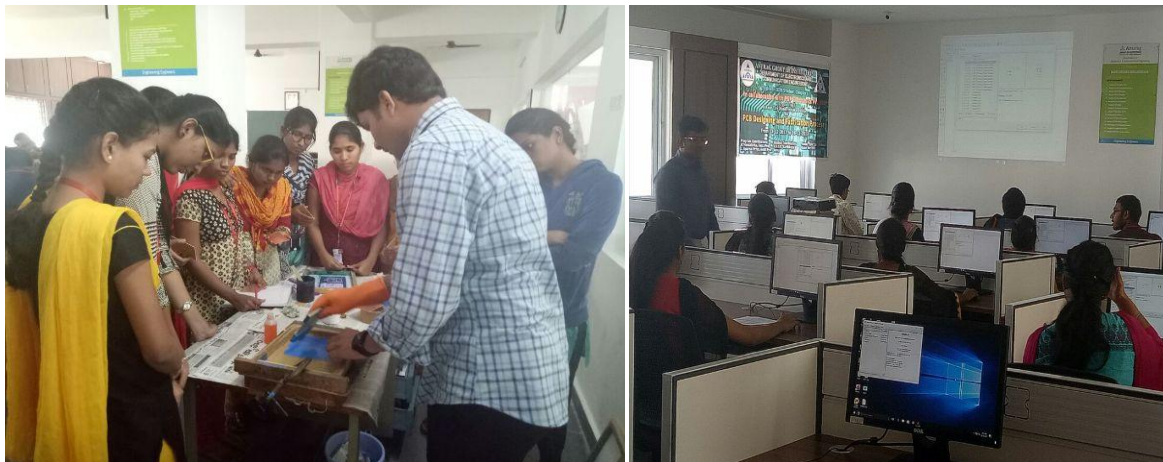

Resource Person: PGP Electronics Pvt Ltd.

Date: 13/12/2017 to 16/12/2017

Key points: PCB Design

Summary : PGP Electronics are the manufacturer and exporter of electronic test & measuring instruments, Embedded System Products. Experts from PGP explained the importance of PCB and the steps in designing the PCB. They also mentioned the materials required for drawing the layout and for the process of Etching. Students have got hands-on experience in designing the PCB. PGP experts trained students to design their own PCB.
